SONOMA'S CITY TRUSTEES DECIDE TO LAY SEWERS BY DAY LABOR

BIDS RECEIVED CONSIDERED TOO HIGH AND REJECTED—MONEY FOR PROJECT WILL BE KEPT AT HOME—WORK TO BEGIN NEXT MONDAY IN CHARGE OF R. QUARTAROLI

Sonoma will lay her sewers by day labor.

The Board of Trustees believe that the work can be done by home labor and that a little money will be saved on the job.

But two bids were received for the work of laying the sewer on First, Napa and Patton streets when the City Trustees met Friday night to consider tenders for the work.

A Petaluma firm of contractors offered to do the work in accordance with the specifications for \$312.92. Mr. Meyers, a Richmond contractor, saw a profit in the work at a figure considerably under this, his offer being \$2065.60.

But the Board of Trustees believed there was still a safe margin for a profit if the work was undertaken by home labor, and so the bids were rejected, and the clerk was instructed to return the certified checks to the firms bidding.

In addition to saving a little on the cost of laying the sewers by day labor, the money will all be spent at home, which is an added inducement, the Board believes, for rejecting the bids of the outside contractors.

An adjourned meeting of the Board of Trustees was held Monday night at the City Hall to further consider the matter.

Rafael Quartaroli was engaged, at this meeting, to superintend the work of laying the sewers. Mr. Quartaroli is to hire his own men, and he will receive \$5 a day as foreman of the work, on an eight-hour basis. Mr. Quartaroli is at present employed on the railroad section at \$4 for a nine-hour day, and he will willingly resign from the railroad's employ. He will begin on the sewer next Monday morning.

City Clerk Gottenberg was directed to notify Howe and Peters, engineers for the sewer and street work, to be here Monday to do the necessary surveying for the starting of the sewer work.

Clerk Gottenberg was also instructed to prepare an advertisement for furnishing the sewer pipe, and it is believed that the pipe can be had by the time the excavation work is done.

All property-owners along the line of the sewer, on streets that are to be paved, will be notified that they must connect with the main sewer and extend their pipes to the line of the curb. This will have to be done whether or not there is a building on the lot. This order is made so that it will not be necessary to tear up the street at some future date to connect with the main sewer.

The Trustees believe that all future connections for sewers or water mains, when the street work is com-

pleted, should be under the direct supervision of a city employee, and the task of preparing an ordinance to this effect was referred to the Finance and Ordinance Committee. The ordinance will be submitted at an adjourned meeting of the Board to be held next Tuesday evening.

With the entrance of the city into the capacity of an employer of labor, and the consequent need for accident insurance, it was pointed out that the liability insurance would also require that the city pay a two-dollar fee on each of its roll of forty volunteer firemen. While this roll is a myth, it appears that the existence of the department is of record, and payment will have to be made accordingly.

Chairman Dal Pogetto was authorized to ascertain the cost of liability insurance under the state's provisions, and if necessary to avoid the payment of the two-dollar fee for forty volunteer firemen that have not volunteered, a resolution will be adopted disorganizing the Sonoma volunteer fire department.

CITY MAN BUYS POULTRY RANCH AT EL VERANO

George Kroeger of San Francisco has bought the Casson place of four acres at El Verano, and will engage in the poultry business. Mr. Kroeger has been employed in an insurance office in the city, and he gives up a good position to enjoy the comforts and independence of life on his own place in the Valley of the Moon. The sale was made by L. Mouyer and Company of El Verano. Mr. Mouyer has recently repurchased his former home place at El Verano. The home was bought by A. Jensen, who is now a resident of Vallejo, where he is employed.

A BACKWARD GLANCE BY OLD-TIME RESIDENT

Martin Hester of San Francisco is spending a few weeks at the Sonoma Grove resort. Forty years ago Martin was well known to everyone in the valley. He was a shoemaker and had a shop in an old frame building on Napa street where the telephone office now stands.

After surveying the town a few days ago and inquiring about different people, he was surprised how things have changed since his day. Trustee Geo. Breitenbach and Fred Duhring were wearing swaddling clothes then, he said; Jerry Linehan was the richest man in the country. Jake Meyer of Vineburg was smooth shaven, and bald headed and Jim Albertson was the polished dude of the town.

RED MEN—POCAHONTAS JOINT INSTALLATION

The Red Men and Pocahontas had a very happy time at their recent joint meeting. When officers of both orders were installed. There was a large attendance of members of the Sonoma lodges, and in addition several of the Grand Lodge officers were in attendance, as well as many visitors from San Rafael and San Francisco.

Following the installation ceremonies, there was a bountiful lunch, and then came dancing, which was enjoyed until a late hour.

The Red Men and Pocahontas have nearly completed their plans for an outing of the members and their friends, which will take the form of a picnic, to be held on Sunday, August 1st, at Schumann's Resort, Buena Vista. There will be athletic sports and contests of many kinds as well as dancing, and it is planned to make the event a very happy occasion for all members of the orders and their friends.

The officers installed by the Order of Pocahontas are as follows: President, Mrs. Louisa Kerner; Vice President, Mrs. Frank Joost; Vice Presidents, Mrs. Rosa Randolph, and Mrs. F. Helberg; Secretary, Mrs. J. Steiner; Treasurer, Mrs. Augusta Moebes; Marshal, Mrs. D. Colli; Inside Sentinel, Mrs. G. Schumann; Outside Sentinel, Mrs. R. Anthonien; Trustees, Mrs. J. Keechler, Mrs. G. Kennel, Mrs. B. Rehaag.

The following officers were installed by the Red Men: John Muller, O. C.; Ed. Bacher, U. C.; H. C. Lutgens, Treas.; R. F. Abele, Financial Sec.; B. Schrempf, Cor. Sec.; F. Joost, F. Helberg, Trustees; D. Colli, I. G.; F. P. Kiser, O. G.

FORMER SCHELLVILLE CHILD BRIGHTEST IN STATE

One of the San Francisco papers contained a picture of Loganell Beamer, former Schellville child, a few days ago, with a story proclaiming her to be the brightest child in California.

The girl is the daughter of Mr. and Mrs. Logan Beamer of Eureka, former residents of Schellville, and she is eleven years old.

In part the article in the San Francisco paper is as follows: "The girl's father is an attorney at Eureka. The girl herself manifests none of the outward characteristics of a prodigy. In her high school studies she has made an average record. Three years ago, however, she fell under the attention of Dr. Louis M. Terman, professor of educational psychology at Stanford, then visiting in Eureka. Certain observations that he made at the time convinced him that the girl was beyond the ordinary in mental perception."

"Last week the child's parents brought her to Dr. Terman for additional tests. The full military mental activity tests were given her. The tests are the same as those given to university students. The average record of the seniors in those tests was set at an arbitrary valuation of 132. The tests were made on the time basis and depended upon the speed of her brain functions."

"The girl comes from a long line of intellectuals. She is a direct descendant of John Quincy Adams on her mother's side. The direct line numbers many persons of prominence. Dr. Terman has become interested in the child's phenomenal psychologic possibilities. He declares that she will be fit for University instruction at the age of 14 years, his deductions being based upon the tests made yesterday and three years ago."

"We have not tried to urge her forward or made any attempt to make a brilliant girl out of her," said her father. "We have just let her grow. She loves the outdoors and Latin is her preferred study. For the rest she just takes to studies like an ordinary child. Of course we are proud of her, but we never intend to exploit her."

FRED LOWELL CANDIDATE FOR SUPERVISOR

Fred Lowell, orchardist of the Schellville section, has filed his papers as a candidate for the office of supervisor from this district. Mr. Lowell is a member of the present Sonoma county grand jury.

ST. FRANCIS BENEFIT PACKED BOYES THEATRE

Father Byrne of St. Francis Church gave fair warning in last week's Index-Tribune that those who wanted seats at the benefit performance Thursday night at Boyes Springs Theatre would have to come early, and it was only those who heeded this warning that found seats.

The theatre was packed almost as solidly as a box of Russian River prunes, and Manager George Cause estimated that close to one thousand persons were jammed in the theatre.

All of the entertainers were from the Orpheum and other San Francisco entertainment houses, and the bill for the evening won the hearty approval of everyone who saw and heard it.

Accompaniment for the musical specialties was furnished by the March Sisters of Ocean View, who are famous artists with violin and piano.

At the close of the entertaining features of the evening, dancing was announced. Music was furnished by Wilson's jazz orchestra.

Father Byrne has not announced the net benefit resulting from the entertainment, but it is clear that it must have far exceeded the anticipations of the committee having the arrangements in charge.

SONOMA PEACHES TO HONOLULU ON RUSH ORDER

J. M. Curtin got out a rush order of freestone peaches Sunday for shipment to Honolulu. The order was for 200 boxes, and it was received by Mr. Curtin Saturday at noon. It called for shipment Sunday, and fearing that the fruit would not be received by the express company Sunday, Murt Curtin drove up from the city with a truck, prepared to take the packed fruit to the steamer at the city wharf.

All available help at the orchard was put to work, and by packing late Saturday night and early Sunday morning, 120 boxes of peaches were ready for shipment by afternoon express.

Every peach in the shipment was wrapped, and each box contained seventy-five peaches. Mr. Curtin received \$1.50 per box, or at the rate of two cents a peach.

Mr. Curtin is also shipping apples and figs to San Francisco, and there is a good demand for all the fruit that he has for shipment.

More than one hundred boxes of choice figs have been shipped from the Curtin orchard, netting Mr. Curtin \$2 per box.

MARGUERITE QUINN DIES AT SUMMER RESORT

About a month ago, Marguerite Quinn of San Francisco came to the Farrell resort in the hope that a change of climate would give her a firmer hold on life. But her hopes were futile, and she passed away Monday. She was formerly the wife of Billy Springfield, and the couple kept a resort near Boyes Springs, Springfield committed suicide by shooting himself a number of years ago. As the deceased seemed to leave no heirs, Dr. Phillips, Public Administrator, came to Sonoma to take charge of the body and the estate.

COUNTY TO EMPLOY PUBLIC HEALTH NURSE

The Board of Supervisors last week decided to appropriate \$3500 to provide for the employment of a county nurse. The appropriation of \$3500 is to cover the salary of the nurse, which is to be \$125 a month, and the purchase of an automobile for her use in the work. The nurse will have her headquarters in Santa Rosa. She will do the school health work outside of incorporated towns, and besides the school work there will be the supervision of the resorts and the keeping of records of the tuberculosis work being carried on throughout the county.

SONOMA'S BALL PLAYERS DEFEAT BOYES TEAM

There was a good game of ball Sunday afternoon at Boyes Springs between the team from the Sonoma Valley Union High School and the Boyes Springs team. Many good plays were made by individual players on both teams, but the Sonoma boys easily demonstrated their superiority as a team, and won the game by the score of 7 to 1.

MERVYN BISH TAKES TEXAS GIRL FOR BRIDE

Word has been received by Mr. and Mrs. L. M. Bish of the marriage of their son, Sergeant Mervyn Bish, to Miss Leah Eckhart of San Antonio, Texas.

The groom is the eldest son of Mr. and Mrs. Bish. He enlisted in the aerial service at the beginning of the war, and at the time of his discharge last May he decided to enlist for another year. He has charge of an electrical plant at the aviation camp at Kelly Field, Texas.

Mr. Bish is well-known in Sonoma and vicinity, having spent his boyhood days here attending the grammar and high schools.

The young lady of his choice lived with her parents in San Antonio, and is said to be of charming personality and most estimable qualities.

After an extended honeymoon trip, the young couple will go to house-keeping in close proximity to Kelly Field, where Mr. Bish will continue in the service.

The many friends of the groom in Sonoma and the "Valley of the Moon" will extend sincere wishes for a long and happy wedded life for himself and his Texas bride.

NEW HIGH SCHOOL TEACHER FOR SONOMA

Miss Anna H. Burt has been engaged by the Sonoma Valley High School Board to take the place of Miss Shirley Ward, resigned.

Miss Burt comes from Fort Bragg, where she has been teaching for three years. She is a graduate of the Chicago University, and has had eight years of experience as a teacher. She has also taken summer school work at Stanford University.

The trustees are making many improvements at the school in preparation for the opening of the fall semester. A cement floor is being laid on the tennis court, in order that the rains of winter shall not interfere with the enjoyment of the game. New equipment will be installed in the manual training department, including forges, saw table, etc., and an electric motor to drive the machinery.

Beginning with the fall term, all the books used by high school students will be supplied by the state. This rule has been in effect with grammar school pupils for a number of years, but is now effective as a state law for high school students for the first time.

The date for the opening of the school for the fall semester has not been set.

NEW CATERERS AT "THE LARK" CLUB HOUSE

"Bob" Filipini and Maurice Belber have taken over "The Lark" club house at Caliente Springs, and are planning to make it the most popular dining and pleasure resort in the valley. Both young men have a large acquaintance in Sonoma county, and their many friends will be glad to greet them at "The Lark". "Bob" Filipini has been engaged in the sheep business extensively, and is known to dealers in Napa and Sonoma counties. Maurice Belber was with Fetters Springs for six years, during which time he established many firm friends and acquired a large experience in catering to the public.

SPECIAL TO AUTO OWNERS

Attention is called to the ad run by Union Garage this week. It will pay every motorist to investigate the Gillette and the Kokomo tires. Le Hotz, manager of Union Garage, has permission from San Francisco to sell tires and tubes at a record-breaking price for a short period of time, so as to help him introduce in this territory this line of tires. These are all firsts, and bear the full guaranteed mileage, and Mr. Hotz has so arranged that he can make all adjustments here instead of sending to San Francisco for same. It will pay you to see him about this and get in on rock bottom prices.

BIG VAUDEVILLE BILL TO-NIGHT AT FETTERS

The Fetters Springs management has arranged a big bill of entertainment for to-night at the Springs theatre. The bill will include the Hellen Sisters, song and dance artists, and Hoffman Brothers, who have a high reputation as comedians. The vaudeville features will be followed by a dance.

BUSINESS MEN'S ASSOCIATION PLANS TO PROCURE FIRE-PROTECTION EQUIPMENT

COMMITTEE APPOINTED TO CONSULT WITH BOARD OF CITY TRUSTEES AND CITIZENS, TOWARD ACQUISITION OF AUTO CHEMICAL ENGINE AND PUMP FOR SONOMA

Sonoma business men have decided that the city shall have a modern fire-fighting equipment.

This was the main topic of discussion Monday evening at the meeting of the Business Men's Association.

It is believed that a combination auto chemical engine and pump will be best adapted to Sonoma. This type of fire-fighting equipment is in use in a number of the smaller cities and towns of California, and according to reports has given good satisfaction. Healdsburg recently acquired an auto chemical engine, and the town of Monte Rio, on Russian River, has just bought an equipment of the same type.

The cost of the combined auto chemical engine and pump is said to be about \$2400, and it is believed that this amount can be raised without a great deal of effort in Sonoma.

The recent celebration of the Fourth of July in Sonoma netted the sum of a little more than \$800. This will be divided pro rata between the Business Men's Association, the Women's Club and the American Legion, giving each about \$270.

The Business Men's Association plans to use its share of the proceeds from the celebration as a nucleus toward the purchase of an auto chemical engine and pump.

Various ways have been suggested for raising the full amount of money necessary for the fire-fighting equipment. W. F. Clewe, president of the Business Men's Association, has appointed this committee to handle the matter: Ralph Hotz, R. R. Emparan and O. R. Wagner.

These representative men will canvass the situation thoroughly among citizens and property owners, and will also take up the matter with Sonoma's Board of City Trustees.

The committee will make its report at the next meeting of the Business Men's Association, and it is the intention of the association to push the proposition to a successful issue.

CONGRESSMAN LEA FILES NOMINATION PAPERS

Congressman Clarence F. Lea of the First California District, filed his papers with the county clerk this week for a place on the August primary ballot. Mr. Lea filed nomination papers for both the Democratic and Republican tickets, having been nominated two years ago by both parties and elected practically without opposition. This year he will be opposed by Chas. A. Perry of Healdsburg and Eavelle Howard of Lakeport on the Republican ticket.

A. W. Pierott of Napa was a visitor in Sonoma the first of the week. Mr. Pierott was a former resident of Sonoma Valley, and left nearly forty years ago. His parents settled near Embareadero in 1864. He found few of his old-time acquaintances here now.

Mr. and Mrs. Howard Barbier, former residents of Kenwood, but now of San Francisco, are spending the summer at their Kenwood place. With them is their nephew, William Cupples who was in the aviation service in France and there distinguished himself by his bravery.

DANCE FOR BENEFIT OF LONDON MEMORIAL FUND

The ladies of the Woman's Improvement Club of Glen Ellen have arranged to give a dance on Saturday evening of next week, July 31st, at Chauvet Hall, the proceeds from which will be used to increase the fund for the Jack London Memorial Library. Good jazz music has been engaged for the occasion, and as the Improvement Club is noted for its thoughtfulness in providing for the enjoyment of all, it is expected that there will be a large attendance at the dance.

Clyde F. Smith, sanitary engineer of the California Board of Health, filed his report on the water supply of Santa Rosa with the city council Monday, and gave it as his opinion, that the water is pure on coming from the well, but that it becomes contaminated by the tunnel route, and has recommended that it be distributed through another channel.

Various ways have been suggested for raising the full amount of money necessary for the fire-fighting equipment. W. F. Clewe, president of the Business Men's Association, has appointed this committee to handle the matter: Ralph Hotz, R. R. Emparan and O. R. Wagner.

THE SUBSTANTIAL CITIZEN

The American home is the corner-stone of the nation. It promotes the stability of the family, stimulates the love of our country, and is the best safeguard of law and order in society.

Few people really like to live in hotels and apartment houses, or eat in a restaurant in preference to the enjoyments of a home, but many do so because of barriers of one kind or another which stand in the way of the home.

Building costs are more than offset by high rents being charged. Home building today is a business the same as banking, and any energetic man can finance a home through a long-time loan if he wishes.

The ownership of a bit of real estate is a fine thing from every point of view. It gives the holder a standing and a self-respect he would not otherwise have. It promotes business confidence in him and makes him one of the substantial upstanding pillars of the community.

Begin it today. Own your home. Get in line to be the solid citizen of tomorrow.—The Manufacturer.

COUNTY DIVISION PETITIONS IN SONOMA VALLEY

The Petalumas who clamor for county division have descended upon us with their petitions for the partition of Sonoma county, and although their encouragement has been ever so slight, they have been seeking names to further their scheme of changing the constitution of the state so as to set up a little principality all its own and have beautiful Sonoma Valley in its dominion. The whole arrangement has been cut and dried in Petaluma, and we believe that half the disruption and unrest in our county has been kept going by Petalumas who hope to disgust Sonoma Valley with its county government and thus make it easier to bring us into the New Helvetia. Petaluma propagandists may be wise in their own conceit, but we opine that loyal Sonoma Valley residents will prove a match for them, and that hypnotic petition circulators will not succeed in interesting many in the secession scheme nor persuade them to mix up in the egg scramble for a new county seat and new set of county officers.

When we consider that all the majority vote in the new county could be swung by Petaluma, we will realize how small a voice in county affairs Sonoma valley would have.

Under the present arrangement there are other minorities to join with us in holding Santa Rosa and the bigger places down, but should we cast our fate with Petaluma, she would do all the crowing and cackling for us and we'd have to pay whatever feed bills she would put upon us.

No, Petaluma, we appreciate your undue regard for our future and your solicitation for our best interests, and all that, and as you once suggested, it would be "much better pickings for the new-papers" when we changed our place of business from Sonoma to Petaluma county, but with all that we cannot be a party to your division proposition, and we deny your methods of forcing your self-praised protectorate upon us.

THE ARRAIGNMENT of Volstead (enforcement author) on the ground that he is an atheist has this much virtue—it makes us reasonably sure that the proponent of legislation such as he had enacted believes his point of view all-powerful. A supreme egotist is at heart an atheist, though he may profess belief in the Omnipotent. It has always seemed to us that man makes himself ridiculous when he interferes with the arrangement of the all-powerful, whereby man's volition plays so important a part in his destiny and evolution. When artificial law steps in to discredit God's plan for man's salvation, a weak link is being substituted for the chain by which we all hope to make our way across the great chasm which separates us from Eternity. We believe atheist is too good a name for Volstead, for there have been atheists to whom the creed of the brotherhood of man meant something and to whom love of country and the constitution of the United States were sacred.

DETECTIVES were paid over \$1100 to unearth vice conditions in Marysville, so bills presented by the detective agency to the supervisors of Yuba county show. It is a poor detective who will not dig up some evidence in a week (the time spent on the job in Marysville) when the compensation is to be \$1100 or more. Better left it buried, perhaps, than to dig up this sort of vice which smells to heaven in detective line-light but usually peters out when ferreted out in the formal way. The county official who can be scared by reformers into spending \$1100 of the people's money for detectives is usually a poor public servant. If vice exists we are paying officers of the law good salaries to ferret it out and get rid of it. Detectives on a county or city pay roll are an excrescence.

WE BELIEVE that the Japanese restriction law should have been more rigid long before this. Now the self-assured brown man does not want to be crowded back or restricted from infringing on our Golden State. It is to be hoped that the Congressional inquiry into the situation will lead to something definite and that Japan will come to see that we do not want an over-plus of people which cannot be assimilated. Let us encourage the kind of immigration for if the right blood does not flow into the veins of our coming generations, all our great work for betterment will be drowned out and the money utilized for the rebuilding of the race wasted. This is the time for deep thought on the racial problem and for action.

The telephone office at Guerneville was entered some time Friday night and robbed of \$17.

CONTEST ON FOR KING AND QUEEN OF COUNTY FAIR

The "Kiddies' Contest" for King and Queen of the Sonoma County Fair is becoming interesting. The winners will be crowned in royal robes and crowned with an appropriate ceremony on the opening day of the fair, August 23d.

Hundreds of families in Sonoma, Mendocino, Lake, Solano and Marin counties ought to have a season ticket. They save sixty per cent of the admission fees, and it is to the boy and girl who sells the most of these season tickets that will go the grand prize, a Shetland pony, cart and harness, and the titles of King and Queen. Choose from the following list some one you wish to support, and then don't wait to be solicited but send in your name to the contestant and help to advertise your own community by having a local boy or girl the "ruling spirit" of the fair. The following is a list of the names entered to date:

Vallejo—Marie Rook, Dorothy Keithley; Napa—Henrietta James, Aspasia George; Sebastopol—Walter Monroe, Floyd Briggs, Edwin Bisordi; St. Helena—Mildred Allison; San Rafael—Theodore Brazil; Kelseyville—Florence Milam; Healdsburg—Charlie Relyea; Potter Valley—Eva Graves; Boonville—Dollie Ornbauer; Santa Rosa—Billy Aldrich, Lola Walton, Albert Cassard, Burhl French, Dupacki Sanders, Angelina Toscani, Ed Brohacek.

CITY'S ROCK CRUSHER IS TO BE REPAIRED

In anticipation of the need for the city's rock crusher when the work of laying Sonoma's new pavements begins, Trustee Breitenbach has been authorized to have the crusher put in good condition. It has had hard usage in recent years by contractors, and is in bad shape, according to the statement of Rafael Quartaroli.

The city will also buy three dump cars and a chute, which are offered to the Board for forty dollars.

REV. OEHLMANN WEDS MONDAY IN SAN RAFAEL

Rev. Henry Oehlmann, who several years ago was pastor of the Episcopal Church in Sonoma, and Miss Alice Keeler, were united in marriage in San Rafael Monday. The bride is the daughter of Mr. and Mrs. Addison Starr Keeler of San Rafael, and has been a favorite in her home town. Just preceding her marriage, she was honored by a number of social events, and on Friday afternoon Mrs. Phillip Foster Brown of San Rafael gave a kitchen shower and tea at the Lagunitas Golf and Country Club, in Marin county, in compliment to Miss Keeler. A large number of the younger society matrons and girls in Marin county were present.

The groom and bride will make their home in San Francisco where Rev. Oehlmann is stationed.

AUTO LAWS TO BE ENFORCED IN SONOMA

Sonoma authorities have been paying little heed to traffic regulations, which has been the cause of more or less complaint. Auto owners have been in the habit of parking their cars almost anywhere on the street or about the Plaza, regardless of customs in well-regulated municipalities. To be up-to-date in this regard, Sonoma's Trustees have decided to provide an ordinance for the purpose, if necessary.

Marshal Albertson will be supplied with cards, and whenever the watchful marshal finds a car parked in violation of the law, he will tag it, notifying its owner to appear before the city's court and show reason why he should not be punished. Speeders will also be brought up with a round turn.

Marshal James Albertson says he will be strictly on the job when he is equipped with the cards of authority.

AL STEIN ADDS ACTUELLE LATEST IN PHONOGRAPHS

Al Stein, the enterprising stationer and music dealer, has added the Actuelle to his stock of musical instruments. The Actuelle is said to be greater than the phonograph, and superior in tone. There are no needles; a taut wire carrying the tone vibrations from the record to a parchment cone, which amplifies and reproduces the tone in its natural vigor, with a clearness no phonograph could equal, it is claimed.

YOUNG LADY BREAKS ARM IN FALL FROM HORSE

Emma Oswald, a young woman from San Francisco who came to Fetters Springs to enjoy an outing, fell from a horse she was riding one day this week and broke her arm. The cinch strap broke, allowing the saddle to turn, which threw Miss Oswald to the ground. She was brought to Sonoma, and Dr. W. B. Hays set the broken bone.

EXPERTS INVESTIGATE COUNTY BRIDGE WORK

H. F. Warrington, assistant highway engineer of the California Highway Commission; County Surveyor R. Press Smith of Santa Rosa and Joseph Cox, a civil engineer of Healdsburg, last week inspected the three bridges on the Sonoma-Petaluma highway which District Attorney Hoyle declares have not been built according to plans and specifications. The investigators will make a written report to the Board of Supervisors.

BOYES SPRINGS FIRE CHIEF IS BUSY MAN THESE DAYS

George Cause, Boyes Springs fire chief, and his Red Devil chemical outfit, have been doing good service this week, according to reports. Tuesday the chief was called to Glen Ellen to subdue a fire that had started there. The Little Red Devil did not accompany the chief on this occasion.

The first of the week a fire at Fetters hotel threatened to destroy that structure, but with the help of the chemical engine it was extinguished before much damage was done.

There have been so many calls for the services of the chemical engine, that a movement is under way to buy another, and a benefit performance will be given at the Boyes Springs Theatre sometime in August to help in raising the necessary money for a new chemical engine.

DEATH OF MRS. COGO AFTER LONG ILLNESS

Mrs. Angelo Cogo, wife of G. P. Cogo, died at the family home in Sonoma early Sunday morning. Mrs. Cogo had been suffering from cancer for many months. She was born in Italy, and was seventy years of age. She had been a resident of Sonoma a number of years. Besides her husband, she left two sons—Julius Cogo of Sonoma and John Cogo of Napa. A third son, Joseph Cogo, died a few months ago.

The funeral was held Monday afternoon from St. Francis Church, and the body was interred in Mountain Cemetery.

M. adviser, are in Santa Rosa investigating the state egg laying contest. They will use the information gained to help them in the Sonoma county egg-laying contest that will be held in September.

Saturday, a calf club was formed at Petaluma under the supervision of the Petaluma high school. Six Jerseys, three Ayrshire and eleven Holstein calves were given to boys to raise. The boys bought the calves with the understanding that they will enter in the calf raising contest to be held running for five or six months. Those boys who did not have the required cash to buy the calves were backed by some of the banks of Petaluma.

Gillette Chilled Rubber Process

None of the mighty strength of the Gillette Tires and Tubes runs wild. None of it is wasted. The remarkable Gillette Chilled Rubber Process—the newer and better way of Tire and Tube making, increases—then cages up—the natural resistance of rubber—toughens it as iron is toughened by conversion into steel. No other method can accomplish this.

Gillette Tires and Tubes do not go to pieces when exposed to heat, cold or dampness. They hold their own against hardest going. They remain firm and full of fight despite long, grinding friction.

One Gillette will prove to you the fact we are already solidly convinced—that they are positively longest wearing, least costly of all tires and tubes. Make a mileage test—one Gillette against three of other makes.

ENJOYED TRIP ACROSS SIERRAS TO NEVADA

Although Mr. and Mrs. W. L. Murphy may be home from their auto trip to the Sierra lakes and Nevada by the time the Index-Tribune is printed this week, the following account of the first half of their outing will be of interest to their Sonoma friends:

Heniz Ranch, Nevada
July 17, 1920.

Dear Mr. Cooke:—

Here we are in the state of Nevada visiting at the 1600 acre ranch of our friends, Mr. and Mrs. Charles Heinz. We are sure getting real Western hospitality, too. Arrived in Reno Thursday evening after a delightful trip from Truckee via the Dog Valley grade. We have found some steep grades but our Buick behaves beautifully. We had a good trip all the way from Sacramento, which we left Wednesday, after an interesting visit to Sutters Fort (my first trip to this place of note).

At Roseville we visited the newspaper offices, and looked over the plants. It is hard to wean these scribes from printers' ink. At Auburn we called on the Shepards. More fraternal visitation, but as my grandfather published the first newspaper at Auburn, I was particularly interested in that town. It is quite up-to-date, too, but has preserved many of its old landmarks of '49.

As we promised you, we also went to Dutch Flat, and it proved the greatest reminder of the old California of anything we saw—surely a quaint, quiet burg, almost forgotten, and forlorn looking, although we saw a few tourists like yourselves viewing it with reverence.

We made the high Sierras to Summit, 7000 feet elevation, by 9 o'clock Wednesday night. As evening came on we could see gleaming camp fires in the forest along the road and almost wished we had come equipped to camp, too.

After going through the snow sheds we finally pulled into Summit and spent the night there at the hotel. In the morning we found the McDevitt camp located in a lovely pine forest right on the shores of a pretty lake. Mrs. McDevitt and the children are in camp there now, with Mr. McDevitt and our former printer, Joe Andrieux. They gave us a hearty welcome. Charley says he wouldn't change his present job with the S. P. for city trustee of Sonoma again for a gold mine.

We left Summit at 10 o'clock and went over the famous pass to Donner Lake. It takes some careful driving, but the vista one gets pays for all the chances you take, and the down grade, while very steep, is not long. After passing through a fine forest at the foot of the rocky pass, we came to Donner Lake Camp, a fine resort, and a little further on viewed the splendid monument to the Donner Party erected by the Native Sons and Daughters a few years ago.

After a camp fire lunch on the outskirts of Truckee we drove to Verdi and then to Reno. It was hard to get accommodations for the night at Reno, as the races were on and the town is well crowded. Reno is a city of very metropolitan appearance and we saw quite a few fair ladies who looked like they might be waiting for their decrees.

Friday morning we sought out some old time residents who directed us to the Heinz ranch, sixteen miles out of town, near the Nixon Copper mine and across from the famous Alkali lake. It was to be a genuine surprise, but on the way out we passed a Ford which proved to have as one of the passengers Charley Heinz' wife, and she was quick to recognize Mr. Murphy and suspect that he was headed for the ranch. She telephoned to the folks of her suspicions that the Murphys were about to make their long promised visit, so the surprise was not altogether a success, although the warm welcome we got made up for everything.

This is a big ranch with plenty of

cattle and nice cows. Their seems to be lots of water to raise green feed and although they complain of short crops on account of the dry winter they are cutting considerable hay and grain (rye).

Yesterday we did some hunting. Rabbits are plentiful in the sage brush and W. L. Murphy is having the time of his life jumping them up.

We are enjoying every minute, have real mountaineer appetites and are living high as Mrs. Heinz, Sr., her daughters and daughter-in-law are splendid cooks and bountiful caterers. Walter says "this is the life!" but we leave regretfully Sunday.

With kind regards and hoping the Index is prospering,

Yours sincerely,
Celeste G. Murphy.

STARTLING FLYING STUNTS AT SONOMA COUNTY FAIR

Contracts have been closed with the flyers for airplanes exhibitions during Sonoma County Fair Week. Lieutenant Jay M. Fetters, one of the flyers, during the war was an instructor of flying, and several of the flyers who won distinction in France owe their success to his training. Lieutenant G. A. Schmitt, another flyer, was in the service overseas, and bears the honor of being an American ace. He will pilot his own plane in various stunts during Fair Week.

The daredevil of the week will be Lieutenant Leon Ferguson. His "stunts" include hanging by his toes from the bottom of the plane thousands of feet in the air; standing in an upright position and walking around the edge of the upper plane; and swinging by one hand from a pair of overalls that will be fastened to the underside of the lower plane. He also goes from one plane to another without the aid of a rope ladder.

On Sunday, August 22d, the day preceding the opening of the Fair, the flyers will visit every town and settlement in Sonoma and surrounding counties, dropping literature, and will entertain people in five counties.

Every day during Fair Week the flyers will give two exhibitions, one before the races and one afterward, and will carry passengers daily.

POULTRY DISEASE INVESTIGATOR APPOINTED

Dr. C. S. Carpenter of New York has been appointed investigator for the co-operative poultry disease laboratory in Petaluma, and will take up his duties early in September. This laboratory has been established thru the joint efforts of the Poultry Department of the Sonoma County Farm Bureau, the Petaluma feed dealers, Petaluma Chamber of Commerce, and the University of California. It has long been felt that there was need for investigation of poultry diseases. Federal and State appropriations being inadequate, and desiring to meet the needs at an early date, the Petaluma feed dealers raised funds to pay the salary of an investigator for a year. The University of California has arranged to equip the office and direct the work. The Board of Supervisors of Sonoma county have provided for the expenses of the office and laboratory for one year.

The object of this poultry disease laboratory will be to investigate certain diseases of poultry which have given serious trouble in Sonoma county and other portions of the state and give the results of such investigation to the poultrymen as a whole. Poultrymen desiring to assist in this work are requested to make statements of the disease situation in their own flocks for which they have been unable to obtain relief to the Farm Advisor's office in the Court House, Santa Rosa. The most important of these will receive the first attention of the investigator on his arrival.
